

## RO-KA-TECH: International Fair for Sewer Technologies

RO-KA-TECH 2019 takes place from May 8 to 10, 2019

RO-KA-TECH is a German underground infrastructure trade fair that opens its doors to visitors every two years in Kassel. Pipeline and sewer technology companies present their products, innovations and services to network operators, planners and decision-makers from the municipal sector both in Germany and Internationally.

The next RO-KA-TECH will take place from the 8<sup>th</sup> to 10<sup>th</sup> May 2019 at the Kassel Exhibition Center. Around 300 exhibitors are expected from around 20 countries. The organizer is VDRK, the Association of pipe and sewer technology companies.

\*As of November 2018

## Topics and products at RO-KA-TECH 2019

- Occupational safety, safety equipment
- Construction equipment and vehicles

#### Construction equipment and vehicles

- Multiskilling, training and retraining
- Leak-tightness testing technology
- Services
- Financial services provision
- Drainage technology
- Gas Detection equipment
- Deodorization
- High-pressure jetting technology, nozzles, hoses, pumps
- Engineering services
- Sewer and manhole covers
- Sewer and manhole renovation technology
- Sewer and manhole inspection technology
- Laboratory Testing
- Robot technology
- Pipe and sewer cleaning technology
- Pipe manufacturer
- Sewage shaft
- Sewer locating
- CIPP and trenchless renovation systems
- Software
- Tools and accessories

## Visitors at the RO-KA-TECH:

- Decision-makers from local authorities, especially from the sewage management (network provider) sector
- Engineering firms, planners and consultants
- Representatives from companies of the pipeline and sewer industry
- Experts in the fields of civil engineering, renovation and the construction industry
- Associations and institutions
- Representatives of national and international organizations
- Job applicants, students and pupils

## Further information

### Meeting point for the pipe and sewage technology industry

By specializing in the pipeline and sewage technology industry RO-KA-TECH has become firmly established as the industry's meeting point and is well known far beyond the German border. The spacious indoor and outdoor exhibition area (26,000 sq. m. in total) makes it possible for exhibitors to present and fully demonstrate their products and systems.

The first RO-KA-TECH took place in 1996 in Leipzig and it started as a small industry get-together with 60 exhibitors from 3 countries. Since then it has developed into an internationally respected trade fair. At RO-KA-TECH 2017, 286 exhibitors from 19 countries presented themselves across 25,000 square meters of exhibition space. Almost 8,000 visitors from 48 countries came to Kassel.

## What visitors say

## What exhibitors say

**“The RO-KA-TECH is a trade fair especially for us and for our industry. That’s what makes it so special.”**

Mirko Heuser, managing director resinnovation GmbH

**“The location of Kassel is excellent for us because it is in the center of Germany. Additionally, the affordable infrastructure is a further factor in our favour.”**

Mark Herkenberg, KaRo – Kanal und Rohrreinigungsmaschinen GmbH

**“It’s the international trade fair. People from all over the world – America, Australia and Asia – come here. Specialists from the pipe industry come together here in Kassel.”**

Daniel Boller, bodus GmbH

**“Our experience with VDRK has been great so far. The VDRK always made it possible for us to participate at the trade fair and has given us a proper exhibition area where we can present ourselves and our products. The cooperation is flawless.”**

Linda Welter, Bodenbender GmbH

**“As an examination and certification body we have to keep in the loop about the products offered by the companies in the field of rehabilitation and repair systems. RO-KA-TECH is a great opportunity to gain an overview and keep in contact with all the suppliers.”**

Andreas Haacker, Siebert + Knipschild GmbH – Ingenieurbüro für Kunststofftechnik
